## Experience

### Georgia Tech \ Graduate Research Assistant \ JAN 2016 - Present

Design and implement a HUBZero template to improve the usability of a material science e-collaborative platform. Create a newsletter publish pipeline for the platform. Redesign the research group website.

### Google \ UX Design Intern \ MAY - AUG 2016

Refined existing design and created richer experience to improve Play Story UX. Prototyped new design ideas for user study.

### Web Design Freelancer \ Since MAY 2014

### Garena \ Product Designer \ JAN 2013 - MAY 2015

Led the design processes of two products from scratch to shipping, including Shopee, a major e-commerce player in Southeast Asia and BeeTalk, a messaging app with a million daily active users. Design targeted both iOS and Android with a special focus on localization. Worked closely with engineers to create the company's design workflow in order to optimize the entire development process.

### Tecmo Koei Singapore \ Game Designer \ JULY - DEC 2012

Migrated the game data of a web game Nobunyaga from Japan server to Taiwan server on a monthly basis. Proposed UI changes to improve the user experience of the game.
