Work Experience

Software Engineer July '17 - Apr '21
Goldman Sachs

- Built out and launched Marcus consumer checking business, focused on cloud based customer onboarding microservices using Java
- Implemented session management concept for the Marcus mobile app including functionality for long lived sessions, device metadata extraction, agent session invalidation, and more
- Designed mockups and wrote user stories for a chat bot directory on the firm's internal messaging platform; iterated on design with UX team
- Developed an automated onboarding process for chat bots to the firm's internal messaging platform

Software Engineering Intern June '16 - Aug '16
Goldman Sachs

- Conducted a research project in big data to evaluate the performance of secondary indexes in HBase; improve efficiency in cluster resource use

Android Development Intern May '15 - Jan '16
Orbis Systems, Inc.

- Designed, developed and published Paszport do Wall Street, a mobile news reader application from competitive analysis through Java implementation employing Google's Material Design system

Selected Projects

The Blind Date Aug '21 - Dec '21

- Researched and designed features employing a universal design solution to make dating apps more accessible and equitable for blind people
- Crafted wireframes and hi-fi voice prototype, conducted semi-structured interviews and usability tests, and synthesized user research

Klemis Kitchen Aug '21 - Dec '21

- Conducted user research and designed a mobile companion application to increase the impact and efficiency of the campus food pantry at Georgia Tech and provide a better experience for it's users

Education

M.S. Human Computer Interaction
Georgia Institute of Technology '23
GPA: 4.0/4.0

B.E. Computer Engineering
Stony Brook University '17
GPA: 3.35/4.0

Skills

Prototyping	Contextual Inquiry
Wireframing	User Interviews
Interaction Design	Survey Design
Visual Design	Journey Maps
Sketching	Affinity Diagrams
Storyboarding	Persona Development
Heuristic Evaluation	Competitive Analysis
Usability Testing	Backend Development

Tools

Figma	Photoshop
Adobe XD	Illustrator
Balsamiq	Adobe Premiere
Webflow	HTML/CSS
Miro	Android Studio
Zeplin	Java
Sketch	Unity

Certifications & Awards

Eagle Scout
Udacity UX Design Nanodegree

Interests

Photography	Pizza Making
Cycling	Specialty Coffee
Hiking
